Nursery

Nursery places are offered subject to availability; however, we offer priority to siblings of those already attending the school.

If there is availability within the Nursery the child will be invited for an informal assessment with our Nursery Team. Every effort is made to make the entrance procedure as enjoyable as possible for the child.

Pre-Prep (Reception, Year 1 and Year 2)

4+ candidates are invited in January, in small groups of 4 or 5 at a time, to undertake a series of assessment tasks to determine their potential and current abilities. Members of the Early Years Foundation Stage (EYFS) and Pre-Prep teaching staff are involved. Each child is also given opportunities to play with other children and to engage in conversation. Following the process, and receipt of a satisfactory report from the child's current school, the recommendations of the staff are passed to the Headmaster who, in consultation with the Deputy Head, Head of EYFS and Head of Pre-Prep, decides whether to offer a place.

Prep School (Year 3 to Year 6)

7+ candidates are invited to spend a day at the School, to meet potential classmates and be assessed by the Deputy Head and Head of Learning Support, using standardised tests of reasoning, reading skills and school exams.

The decision of offer of a place will be based on the formal and informal assessments of the child completed at Quinton Hall but also based on receipt of a satisfactory report from the child's current school.

In-Year applications

Applications from potential pupils received after January are assessed in the same way as described above. Assessment days will be held twice every half-term.

Offer and acceptances

Offers of a place are made by the Headmaster in writing. A place is secured by sending back the Confirmation of Acceptance Form and paying the required Confirmation Fee. The current Confirmation Fee can be found on the website within the Fees list.

Once the registration form is completed, parents will be asked to pay a non-refundable Registration Fee and attach a copy of their child's passport and if applicable, a copy of their child's latest school report. The School will send confirmation that the candidate is eligible to sit the entrance examination. This does not constitute an offer of a place at the School.

The final date for submission of an application can be found on our website, this might be slightly different each year.

Parents are required to declare, on the registration form, any medical condition or learning difficulty which may affect the candidate. Any supporting documentation from relevant professionals should also be submitted at the time of registration. Additional time in the entrance examinations may be allocated where appropriate.

11+ Entrance

11+ selection is based upon performance in our entrance examinations, school reports and a group activity and discussion.

We are an academically selective school; potential and achievement in at least one major academic area is required of all successful applicants.

The entrance examination is in three parts:

- English examination
- Mathematics examination
- Group activity and discussion

English

We focus attention on the basic spelling and grammar skills of entrants alongside comprehension and creativity. The format is typically a comprehension passage followed by a creative writing element. This might be either non-fiction or fiction and pupils should be prepared for either. The content of the comprehension is aimed at the level of a confident Year 6 pupil. Students are expected to be able to offer comments on the effect of choices made by the writers and questions are graduated in complexity.

We are looking to assess prospective pupils based on their current level; but we are also looking at their potential, especially in the creative writing element of the examination.

Mathematics

The 11+ Mathematics examination requires knowledge of all topics from the Mathematics Key Stage 2 National Curriculum. Candidates will encounter problems that test these topics across a range of difficulty levels in both familiar and unfamiliar contexts. Calculators are not permitted.

We will be assessing the Mathematics level of prospective candidates but will also look at their potential, specifically in the problem-solving section of the paper. The best candidates will show complete working to support their answers; we are looking for pupils who can develop clear and concise solutions rather than just those who can reach the correct answer.

Group Activities

As part of the entrance examinations day, pupils will take part in a group activity. These are not academic tests, but an opportunity for us to see how prospective pupils respond to different problems and how they work in practical circumstances. As a school that values potential, we observe these activities to judge the 'teachability' of potential Lyonians and what they will add to the whole School community.

Interview/Discussion

Applicants are not formally interviewed but will be asked to discuss a topic within a group. The topic may be academic, based on current affairs or similar. It is an opportunity for a pupil to tell us more about his/her interests and aspirations, ask us questions; this should be an enjoyable experience for candidates. Our experience is that many pupils enjoy our interviews and leave us smiling. No explicit preparation is required for the interview.

School Reference

We will contact your child's current school to request a confidential reference report.

13+ Entrance

13+ & 16+ selection is based upon performance in our entrance examinations, school reports and an interview.

We are an academically selective school; potential and achievement in at least one major academic area is required of all successful applicants.

The 13+ examinations consist of four compulsory papers:

- English
- Mathematics
- French
- Science

An optional Latin/Language paper can also be taken

Interview

All applicants will take part in a group discussion about a specific topic. The topic may be academic, based on current affairs or similar. It is an opportunity for a pupil to tell us more about his/her interests and aspirations, ask us questions and this should be an enjoyable experience for candidates. Our experience is that many pupils enjoy our interviews and leave us smiling. No explicit preparation is required for the interview.

Sixth Form Entrance

For those interested in Sixth Form Entry we hold an Open Evening in the Autumn term. This offers the opportunity to meet the Head of Sixth Form, Department Heads and the Head of Higher Education and of Oxbridge provision. Those interested are also invited to join our current Year 11 pupils for their A-Level options talks in January.

The closing date for 16+ applications can be found on our website. Interviews for 16+ entry will be held at the beginning of March. A completed registration form and confirmation of predicted GCSE grades are required. We will also write to the candidate's current school requesting a reference.

16+ candidates are invited to school to meet the Head of Sixth Form to discuss the subjects they would like to take for A-Level. Conditional Offers are made based on interview, predicted grades and GCSE results. For applicants to the Sixth Form there is a minimum requirement of grade 6s in Mathematics and either English Literature or English Language. Any offers are conditional upon examination grades and further discussion about his options may be required once a candidate receives his results.

Scholarships

All pupils who sit the 11+ or 13+ examinations in the January preceding entry will be considered for Academic Scholarships; their performance in the examination, their school report and their interview will all be taken into consideration.

Scholarships are also available for the most able candidates in Art, Drama, Music, STEAM and Sport. Additional assessments will be required for these awards. Scholarships normally provide a remission of 5% of the tuition fees per year.

Music, Drama, Art, STEAM and Sport Scholarship application forms are available to download from our website or can be requested from the Admissions Office if required. The final date for submission of a

Information about the right to cancel and how to cancel is set out in the School's cancellation notice and form published on the School website.

PROGRESS THROUGH THE SCHOOL

Where possible and desirable, a child who enters the School shall automatically progress through each stage of the School.

- Early Years Foundation Stage (EYFS) (Reception) to Key Stage One (Year 1)
- Key Stage One (Year 2) to Key Stage Two (Year 3)
- Key Stage Two (Year 6) to Key Stage Three (Year 7)
- Key Stage Three (Year 8) to Key Stage Four (Year 9)
- Key Stage Four (Year 11) to Sixth Form

However, for this to be the case, the School needs to be confident that the pupil has sufficient ability to cope with the demands of the curriculum and must have a satisfactory attendance and disciplinary record. This is in their best interest both academically and for their own wellbeing and mental health. The pupil must also display a positive work ethic and actively contribute to the wider life of the School, thus making the most of the opportunities offered by the School.

Assessment points and Cause for Concern

The School will provide progress updates, and if necessary warnings, to parents in School reports and in other communication where a pupil is regularly falling short of the required standard of behaviour, work ethic and/or commitment to the wider life of the School, and where the pupil is in danger of not achieving the requisite academic performance to progress to the next stage.

If there is an indication the pupil might not be suitable for the next transition, parents will be notified at the latest by the end of the Summer term, in the year prior to the pupil's transition, to give as much time as possible for the parents to consider applying for alternative schools. The School will provide guidance where possible to find the right alternative school for the pupil.

The decision whether to allow a pupil to progress rests with the Head who will consider each individual pupil's case on its merits, taking advice from those responsible for the pupil's current provision.

Pre-Prep to Prep School

At the end of Year 1, parents will be notified by the Headmaster if there are concerns about a child not being suitable to transfer to the Prep School (Year 3 to Year 6). If not notified, parents can assume the transfer is automatic.

Prep School to Senior School

In the Spring term of Year 3, all children will be given an assessment. Following this assessment, parents will be notified if there is a concern that their child will not be suitable for a John Lyon Senior School transfer when they finish Year 6. This is designed to prompt early discussion rather than a definitive answer, as the suitability of the child is of course subject to change, based on their progress over the following three years. In the Summer of Year 5, parents will be notified by the John Lyon School Admissions office if their child will be offered the opportunity to automatically transfer to John Lyon Senior School or not. The decision will be made jointly by the Quainton Hall Prep and John Lyon Senior admissions and academic staff. The decision will be based on the ability of the child to cope with the demands of the curriculum in the John Lyon Senior School setting, both from an academic and mental health perspective. This will give sufficient time for parents to apply to an alternative school if this is felt appropriate. The Headmaster will provide guidance to find the right School for the pupil.

Year 11 to Sixth Form

To automatically proceed into the Sixth Form, it is necessary for a pupil to achieve six GCSE passes at 9-6, including grade 7s in the subjects they wish to study in the Lower Sixth with the exception of Mathematics, which requires a grade 8. If there are concerns regarding a pupil achieving the necessary GCSE results to proceed into the Sixth Form parents will be written to in the Spring Term of Year 11 to inform them of the concern.
